Professional Summary

Computer Science undergraduate specializing in Artificial Intelligence and Computational Intelligence with experience in Generative AI and full-stack development. Proficient in Python, Java, ReactJS, and SQL, seeking internship opportunities to build impactful AI-driven solutions.

Technical Skills

- **Languages:** Python, Java, C, JavaScript, SQL
- **AI/ML:** Generative AI, NLP, Hugging Face Transformers
- **Web:** ReactJS, Flask, Django, HTML, CSS
- **Tools:** Git, GitHub, PostgreSQL, MongoDB, Linux

Education

KL University, Guntur, Andhra Pradesh
B.Tech in Computer Science and Engineering
Minor in Artificial Intelligence and Computational Intelligence
Sri Chaitanya Junior College
Intermediate (MPC)
Narayana E.M High School
Secondary School Certificate (SSC)

2023 – 2027
CGPA: 8.8/10

2021 – 2023
Marks: 941/1000

2020 – 2021
Marks: 595/600

Projects

Gen AI Intelligent Text Summarizer

May 2026

Technologies: Python, Flask, Hugging Face Transformers (T5-small), HTML, CSS, JavaScript

- Led a team in designing and developing an AI-powered text summarization platform, coordinating project planning and task execution.
- Developed both frontend and backend components using HTML, CSS, JavaScript, and Flask, ensuring seamless integration and functionality.
- Integrated the T5-small transformer model to generate context-aware summaries and dual outputs tailored for technical and non-technical users.

AI-Powered Call Center Assistant using RAG & LLM

July 2026

Technologies: Python, Flask, Hugging Face Transformers, RAG, HTML, CSS

- Developed an AI-powered customer support assistant that answers user queries using uploaded PDF documents.
- Implemented Retrieval-Augmented Generation (RAG) with semantic document retrieval to generate accurate, context-aware responses.
- Built an interactive chatbot interface using Flask and integrated Hugging Face Transformers for intelligent natural language processing.

Certifications

- Cisco Networking Academy – Virtual Internship in Networking
- Google Cloud Platform (GCP) – Professional Cloud Architect
- Certified Advanced Automation Professional by Automation Anywhere

Relevant Coursework

Data Structures, DBMS, Operating Systems, OOP, Artificial Intelligence.
